**Problem: Someone sent me a photo claiming it's from a news event today. How do I confirm it?**

- **Google Image Search:** Check where and when an image was first posted to the web
  - <https://images.google.com>
  - Tineye: <http://tineye.com>
- **FotoForensics:** Break down meta-data and detect layering on news photos
  - <http://fotoforensics.com>
- **Google Earth:** Double-check a location:  
<https://www.google.com/earth/>
